\*\*Measurements should be taken directly on your body

#### HOW TO MEASURE:

##### Chest Measurement

With arms relaxed to your side, measure the fullest part of your bust while keeping the measuring tape parallel to the ground.

##### Waist Measurement

Bend to one side to find natural indentation in torso. This is your natural waist. Keeping the measuring tape parallel to the ground, measure around your waist at the narrowest point of your torso. Make sure to keep one finger in between the tape and your body for a more comfortable fit.

##### Hip Measurement

Stand with your heels together and measure around the fullest part of your hips (approximately 7" to 9" below the waistline) keeping the measuring tape parallel to the ground.
